## **DETAILED ACTION**

### **Status of Application, Amendments, And/Or Claims**

The amendment of claims 23, 25, 26, 28, 31, 32, 40, 43, 50, 51, 53, 56, 57 and 65, and the addition of new claims 68-69 have been made of record.

Claims 23-69 are pending and under examination.

### ***Response to Arguments***

#### ***Claim Objections/Rejection-withdrawn***

The objection of claims 25, 31, 32, 40, 50, 56, 57 and 65 is withdrawn in view of the claim amendments.

The rejection of claims 23-67 under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement is withdrawn in view of Applicants' amendment of claims 23 and 43.

#### ***Claim Rejection-maintained***

#### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29

Art Unit: 1646

USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 23-67 (previously rejected claims) and 68-69 remain rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-24 of U.S. Patent No. 6, 339,061 for the reasons of record on pg. 6-7 of the office action mailed on 10/12/2006.

Applicants argue (pg. 8 of Response) that they will file a terminal disclaimer when other objections and rejections are withdrawn and allowability of the instant invention is indicated.

Applicants' arguments have been fully considered but they are not persuasive because ODP rejection is independent of other rejections. Because Applicants have not filed a terminal disclaimer, claims 23-67 remain rejected

Claims 23-67 (previously rejected claims) and 68-69 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-6 of U.S. Patent No. 6, 734,164.

Applicants argue (pg. 8 of Response) that they will file a terminal disclaimer when other objections and rejections are withdrawn and allowability of the instant invention is indicated.

Applicants' arguments have been fully considered but they are not persuasive because ODP rejection is independent of other rejections. Because Applicants have not filed a terminal disclaimer, claims 23-67 remain rejected.

### ***Conclusion***

No claim is allowed.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
